

1 IRC Channel for mod_perl

1.1 Description

If you want to get some help with `mod_perl`, or just want to discuss `mod_perl`-related things, you might want to check out the `mod_perl` IRC channel.

1.2 The IRC Channel

Although there is nothing "official" about it, `mod_perl` people usually hang out on the *irc.perl.org* or *irc.rhizomatic.net* IRC servers (on port 6667), in the channel *#modperl*.

You might also want to check in at the *#axkit-dahut* channel where many `mod_perl` people hang out for non-serious talk, and the *#axkit* channel for AxKit related talk. See <http://axkit.org/irclog.xml> for more info.
